

2. Conductors

2.1 Definitions and General Properties

2.1.1 Metals

2.1.2 Alloys

2.1.3 Non-Metalic Conductors

2.1.4 Summary to: Conductors - Definitions and General Properties

2.2. General Applications

2.2.1 Normal Conductors

2.2.2 Contacts

2.2.3 Resistors and Heating

2.2.4 Summary to: Conductors - General Applications

2.3. Special Applications

2.3.1 Thermionic Emission

2.3.2 Field Enhanced Emission and Tunnelling Effects

2.3.3 Thermoelectric Effects

2.3.4 Summary to: Conductors - Special Applications

2.4 Ionic Conductors

2.4.4 Summary to: Ionic Conductors

2.5 Summary: Conductors
