

Information about the Master's Modules on Offer by the Department of
Electrical and Information Engineering (Date: 23.02.2024)

Winter Semester 2023/24

There are deviating times for the offers in the following modules:

- **etit5004-01a Digital Electronics**
This module is not on offer.
- **etit5018-01a: Rigid Body Dynamics and Robotics**
This module is not on offer.
- **etit6018-01a Integrated Circuit Design for Medical Applications**
This module is not on offer.
- **etit7002-01a Seminar Analysis of Scientific Papers**
This module is not on offer.
- **etit7012-01a Seminar Selected Topics in Medical Electronics**
This module is not on offer.

Summer Semester 2024

There are deviating times for the offers in the following modules:

- **etit5016-01a Wireless Communications**
This module is not on offer.
- **etit5017-01a Introduction to Low-power CMOS System Design**
This module is not on offer.
- **etit6023-01a Control of Robot Systems**
This module is not on offer.
- **etit7009-01a Seminar on Selected Topics in Systems and Control**
This module is not on offer.
