

2. Properties of Point Defects

2.1 Intrinsic Point Defects and Equilibrium

2.1.1 Simple Vacancies and Interstitials

2.1.2 Frenkel Defects

2.1.3 Schottky Defects

2.1.4 Mixed Point Defects

2.1.5 Essentials to Chapter 2.1: Point Defect Equilibrium

2.2 Extrinsic Point Defects and Point Defect Agglomerates

2.2.1 Impurity Atoms and Point Defects

2.2.2 Local and Global Equilibrium

2.2.3 Essentials to Chapter 2.2: Extrinsic Point Defects and Point Defect Agglomerates

2.3. Point Defects in Semiconductors like Silicon

2.3.1 General Remarks

2.4 Point Defects in Ionic Crystals

2.4.1 Motivation and Basics

2.4.2 Kröger-Vink Notation

2.4.3 Schottky Notation and Working with Notations

2.4.4 Systematics of Defect Reactions in Ionic Crystals and Brouwer Diagrams
