

Information About the Modules on Offer

Winter Semester 2020/21

There are deviating times for the offers in the following modules:

- **etit5004-01a Digital Electronics**

This module not on offer. It will take place for the next time in the winter semester 2021/22.

- **etit8010-01a M.Sc. Project Power Electronics, Control and Communications in Energy Systems**

This module not on offer. It will take place for first time in summer semester 2021.

Summer Semester 2021

There are deviating times for the offers in the following modules:

- **etit6019-01a Design and Analysis of Selected Fundamental CMOS Circuits**

This module is not on offer. It will take place for the next time in the summer semester 2022.

- **etit6023-01a Control of Robot Systems**

This module is not on offer. It will take place for the next time in the summer semester 2022.
